ISACA

25+ Years · Fortune 100 · ISO 22301 · Multi-Industry · Global Programs

Stuart Murray is a **senior enterprise resilience executive and independent advisor** with 25+ years architecting and leading BC, DR, and crisis management programs for Fortune 100 organizations across manufacturing, financial services, technology, and highly regulated industries. He has built programs from inception through **ISO 22301 certification**, led 24/7 incident command across global operations, and delivered measurable improvements in operational uptime, regulatory compliance, and recovery cost reduction.

Clients get senior-level expertise, not a junior hand-off. Stuart has sat in the Incident Commander chair during live crises, authored governance frameworks that passed **seven consecutive SOX & GDPR audit cycles**, and personally conducted **500+ Business Impact Analyses** across Fortune 500 enterprises spanning banking, manufacturing, technology, and government sectors.

### Service Offerings

#### BC/DR Program Design & Build

End-to-end program development — governance frameworks, policy architecture, plan development, and ISO 22301 roadmaps.

#### Business Impact Analysis (BIA)

Structured BIA engagements for operational, technology, and administrative functions including RTO/RPO validation and dependency mapping.

#### Crisis & Exercise Management

Tabletop exercise design, facilitation, and after-action reporting using FEMA-aligned methodology — functional drills to full-scale enterprise simulations.

#### Regulatory & Audit Readiness

Audit-ready BC/DR documentation and governance frameworks supporting SOX, GDPR, HIPAA, ISO 22301, and industry-specific compliance requirements.

#### Cybersecurity Resilience Integration

Alignment of BC playbooks with cybersecurity incident response — unified ransomware and cyber-disruption frameworks coordinated with CISO and SOC teams.

#### Program Assessment & Advisory

Maturity assessments, interim BC/DR leadership, KPI/KRI dashboard design, vendor resilience reviews, and executive stakeholder engagement programs.

### Representative Deliverables

✓ Business Continuity Plans & Playbooks

✓ BIA Reports & RTO/RPO Frameworks

✓ Tabletop Exercise Packages

✓ DR Test Plans & After-Action Reports

✓ Crisis Communications Templates

✓ Vendor Resilience Assessments

✓ ISO 22301 Gap Analyses

✓ Executive KPI / KRI Dashboards

✓ Policy & Standards Architecture

500+
